Education

GPA: 3.51/4.00
Provost Honors

University of California, San Diego
Bachelor of Science, Computer Science — Dec 2017

Experience

FASTECH
03/2017 — present

Front End Developer Intern
- Work with designers and project manager in weekly collaborative design sessions to discuss UI specifications for new version of website
- Produced task flows, wireframes, and high-fidelity mockups using design tools such as Sketch and UXPin and also ensured the technical feasibility of UI/UX designs
- Maintain/modify current website, as well as code the new version of the website using HTML, CSS, and JavaScript

iChamba
01/2017 — 03/2017

UI/UX Design Intern
- Participated in weekly agile meetings with project manager and designers to develop wireframes, interaction flows, and detailed UI requirements
- Conducted user research, heuristic evaluation, and usability testing
- Produced high-fidelity mockups for new version of website using Sketch, and translating these mockups into clean, maintainable code

Garden Compass
09/2016 — 11/2016

Full Stack Web Developer Intern
- Developed Node.js app for plant experts using MEAN stack to store plant spreadsheet data and deployed to Heroku
- Assisted with the conversion of the plant Care Calendar spreadsheet into an intuitive relational database
- Developed with Agile methodology, utilizing user stories, stand-up meetings, and weekly iterations

CRBS
06/2016 — 09/2016

Web Developer Intern
- Edited, designed, and maintained portions of the NIF websites and its online documentation using HTML, CSS, and JavaScript
- Projects: Implemented interactive sunburst pie chart using D3.js, wrote web scraping scripts to expedite biological data curation, created/managed SQL database to store website information

Projects

raceMe
03/2016 — 06/2017

raceme.herokuapp.com
Lead Front End Developer
- Designed and implemented a Interactive web application that visually displays evidence for mental health care disparities in the Greater San Diego Region

Frank
Continuous

frank-app.herokuapp.com
Lead Front End Developer
- A mobile application where users can post pictures of themselves/items, receive feedback on posts, and comment on other peoples' appearances (Username: test; Password: test123)
- Designed and developed front end with a major focus on human computer interaction

Web Portfolio
Continuous

www.pariscrisdo.com
- Responsive profile with a focus on design, graphics, and animation to present information on a single web page - more projects listed here

Skills

Languages
- HTML
- CSS
- JavaScript
- Python
- Java
